Attachments: 038443-32-APPE-redline 01dec16.docx

Leslie, see attached with our proposed modification to address your request.

In short the sentences that you referred to are replaced with the following:

"Based on the apparent lack of connection between the Site and GP-2, Respondents will cease routine methane monitoring at GP-2 following USEPA approval of this Revision 1 to Addendum 2."

If you agree we will prepare a clean copy of the addendum for submittal and agency approval.

Thanks

Julian Hayward

Subject: RE: Technical Report: GP-2 Methane Monitoring Summary and Assessment, South Dayton Dump and Landfill Site ~RPT-038443~

Hi Valerie,

EPA has one comment on the report, which is with respect to Appendix E (Revision 1 – Addendum 2 of the VI Mitigation Workplan). Change the inserted language on page 2, the 2nd full paragraph, as follows (changes in bold):
"Methane and other gases detected at GP-2 are **likely** not related to South Dayton Dump and Landfill Site. Accordingly, Respondents will cease routine methane monitoring at locations which exhibit contamination that is **interpreted as** not associated with the Site (i.e., GP-2) following USEPA approval of this Revision 1 to Addendum 2."

Please submit a clean copy of the report with the modification. Thanks.

Leslie Patterson

Subject: Technical Report: GP-2 Methane Monitoring Summary and Assessment, South Dayton Dump and Landfill Site ~RPT-038443~

Hello Steve and Leslie,

On behalf of the Respondents, please find attached a Technical Report presenting a summary and assessment of GP-2 methane.

We can discuss any questions or comments during the VI Conference call scheduled for Wednesday, October 26th at 1:30 PM ET / 12:30 PM CT.

Thank you,
Valerie

Valerie Chan, P.Eng.
